

JOURNAL OF THE MECHANICAL BEHAVIOUR OF MATERIALS

VOLUME 19, NO. 1

2009

TABLE OF CONTENTS

Application of a Gradient Elasticity Model to Interpret Size Effects in Uniaxial Loading G. Efremidis and E.C. Aifantis	1
A Proposition for a “Self-Consistent” Gradient Elasticity G. Efremidis, N. Pugno and E.C. Aifantis	15
A Note on the Transition from Nano- to Mega-Mechanics: The Role of the Stress Quantization N.M. Pugno and E.C. Aifantis	31
Application of Gradient Theory and Quantized Fracture Mechanics in Snow Avalanches A. Konstantinidis, P. Cornetti ² , N. Pugno and E.C. Aifantis	39
On Dislocation Patterning: Revisiting the W-A Model Part I: The Role of Gradient Terms in Dislocation Dynamics D. Walgraef and E.C. Aifantis	49
On Dislocation Patterning: Revisiting the W-A Model Part II: The Role of Stochastic Terms in Dislocation Dynamics D. Walgraef and E.C. Aifantis	67
Supplementary Article: 3-D FEM and ANN prediction of thermal history and residual deformation due to line heating by oxy acetylene gas flame Pankaj Biswas, N.R. Mandal and O.P. Sha	83
