

JOURNAL OF THE MECHANICAL BEHAVIOUR OF MATERIALS

VOLUME 19, NO. 4

2009

TABLE OF CONTENTS

Contact Stress Analysis of Interference Fit Pins in Composite Plates under Pin Load and Uniaxial Tension Using FEA K. S. Manjunath Aithal and N. Govinda Raju	199
On the Behavior of Viscous Fiber Reinforced Composites L. Tevet-Deree and G. deBotton	209
Dynamic Response of Viscoelastic Cylinders Enclosed in Filament Wound Cylindrical Composites Ö. Sen and D. Turhan	215
Mathematical Modeling and Numerical Simulation of Fabric Drape N. Faré and A. Brillard	225
The Influence of Thread's Interlacing as well as Yarn's Parameters on the Mechanical Properties of Woven Fabrics Brigita Kolcavova Sirkova and Jaroslava Richterova	233
Mechanics of Flexible Sheet Materials during Draping on Complex Surfaces R.B.Ramgulam and P.Potluri	241
Discrete Element Modeling of a Reinforced Concrete Structure S. Hentz, L. Daudeville, F.-V. Donzé	249
Direct Analytical Solutions for Uniaxial Bending Design of Reinforced Concrete T Cross Sections according to the Eurocode 2 Standard M. Skrinar	259
