

JOURNAL OF THE MECHANICAL BEHAVIOUR OF MATERIALS

VOLUME 19, NO. 5

2009

TABLE OF CONTENTS

An Extension of the Dang Van Fatigue Criterion to Finite Life Predictions A.M. Korsunsky, G. Peridas, A. Hills	269
Proposal and Use of a Void Model for the Simulation of Tensile Test by the Node Separation Method K. Komori	279
Modeling of the Densification of Porous Molybdenum by a Unit Cell Approach H.J. Böhm, D. Suschlbauer, H.E. Pettermann, J. Segurado, A. Plankensteiner	289
Numerical Investigation of Hydraulic Fracture Propagation A.B. Kiselev, A.A. Lukyanov	297
Effect of Welding Processes on Fatigue Crack Growth Behaviour of AISI 409M Ferritic Stainless Steel Joints using ASS Fillers A.K.Lakshminarayanan, K.Shanmugam, V.Balasubramanian	307
Automatic Fracture Photoelastic Analysis of a Tempered Glass Plate B. Trentadue and A. Proto	323
Full-Scale Fatigue Testing of the Helicopter Blades from Composite Laminated Materials in the Development Process Bosko Rasuo	331
