

Journal of Pediatric Endocrinology & Metabolism (JPEM)

AIMS AND SCOPE

The aim of **JPEM** is to diffuse speedily new medical information by publishing clinical investigations in pediatric endocrinology and basic research with relevance to clinical pediatric endocrinology and metabolism from all over the world. Although other journals publish such papers, **JPEM** is the only international journal dedicated exclusively to endocrinology in the neonatal, pediatric and adolescent age groups. **JPEM** is a high quality journal dedicated to pediatric endocrinology in its broadest sense, which is needed at this time of rapid expansion of the field of endocrinology. **JPEM** includes the following sections: reviews, original research, patient reports, short communications, letters to the editor (including comments on published papers), book reviews, meetings calendar, noticeboard for pediatric societies. **JPEM** publishes supplements of proceedings and abstracts of pediatric endocrinology and diabetes society meetings.

Indexed or abstracted by: BIOSIS, CABS, Current Contents/Life Sciences, EMBASE/Excerpta Medica, Index Medicus, Research Alert and Science Citation Index.
